

THINKFUN

When it's time for a study break, what you do is up to you. Need to listen to music (classical, jazz, or hip hop)? Laugh or cry at a live theater performance? Contemplate fine art? Thanks to TU's Student Association and other student organizations, you won't have to leave campus to find something to do.

Want to play sports or exercise? Visit the Fulton and Susie Collins Fitness Center, a 67,000-square-foot on-campus facility with the latest in exercise equipment, and the Hardesty Sports and Recreation complex, with lots of space to play.

Prefer to relax by watching sports? When you're not exercising or playing your own favorite sport, you can cheer on TU's varsity teams.

Or, would you rather be entertained by well-known artists like the Jonas Brothers, Justin Bieber, Janet Jackson, Celine Dion, John Mayer, Elton John, Carrie Underwood or Dave Matthews Band — all recent visitors to the city's BOK Center (with ticket prices less than in larger venues).

Then, again, you might find yourself participating in a class and performance with TU Professor of Literature Yevgeny Yevtushenko.

INTERNATIONAL STUDENT SERVICES

The International Student Services Office will become your "home away from home." Your academic and personal success is also our goal. We look forward to welcoming you as you join our university community.

You can apply online at www.utulsa.edu/iss/applying

Contact us for more information, or to arrange a campus visit.

The University of Tulsa, International Student Services

800 South Tucker Drive ■ Tulsa, Oklahoma 74104-9700

TU FAST FACTS

EXPENSES FOR THE 2010-2011 ACADEMIC YEAR

(in U.S. dollars)

Undergraduate Tuition & Fees	\$29,410
Living Expenses	11,568
Total	\$40,978

ACCREDITATION

TU is a fully accredited, doctoral-degree-granting institution.

ENGLISH PROFICIENCY REQUIREMENTS

TOEFL internet based test 61. IELTS overall band score at least 5.0 all sub scores at least 5.0.

Of the 24 Kazakhstan students at TU, all except three are studying petroleum engineering. (Kazakhstan's oil production is expected to make it among the top 10 oil producers in the world by 2015.)

While the Kazakhstans enjoy the advantages of studying in small class sizes with professors who are well-regarded in their fields, all were most excited by the opportunity to take a class outside their major areas of study with world-renown poet, writer and TU professor, Yevgeny Yevtushenko.

"It was so amazing to be in class with someone who is an icon in Kazakhstan," they remarked, "to actually be able to listen to him, to get his autograph and get to know him was beyond my dreams."

The students agree that, for most of them, their initial attraction to TU was due to the university's solid reputation. Once here, they found the campus beautiful, the work challenging, and the faculty always accessible and ready to help with difficult concepts.

The students say that they are like a large, close-knit family. TU's small size, though, affords each one the ability to make friends outside the "family" and to follow all their individual interests.

"Because of the university's size, you have the chance to join an organization and really develop your leadership skills," says Dias Zhurgenov, who serves as president of the Kazakhstan students.

FORWARD THINKING

THINK LOCATION

Since your very first English lesson, you've known you wanted to study in the United States of America. The University of Tulsa (TU) — located in the middle of the U.S. — could be your best option.

Tulsa, Oklahoma is large enough to give you places to shop and eat when you want to get off campus, yet not so busy to distract you from your studies. The university has an excellent reputation and is ranked among the Top 100 colleges in the U.S. And, for students who want to visit other parts of the U.S., Tulsa's central location is ideal.

THINK CHALLENGE

THE UNIVERSITY OF TULSA is a small private school that offers career-minded students a challenging smorgasbord of more than 90 areas of study. (TU's 630 international students from 62 countries are among the total 4,200 on campus.)

Our world-renown Department of Petroleum Engineering in the College of Engineering and Natural Sciences is one of several programs that attract students from around the globe.

TU also is increasingly well known for offering undergraduate students the opportunity to do research of the kind that is reserved for graduate students at larger universities.

TU students Janice and Jason Kok, from Kuala Lumpur, Malaysia, have traveled from coast to coast (San Francisco, California to New York, New York) and north to south (Chicago, Illinois to Houston, Texas) with many points in between.

You can read the full story of the Kok siblings on our Web site: www.utulsa.edu/iss

THINK RESULTS

At TU, various research projects offer students opportunities to learn outside the classroom. Also, F-1 students can use their first year of Optional Practical Training to get real-world experience.

The principal benefit of learning by doing is that after graduation, our students have real-world experience that helps them find work in the profession of their choice.

TU alumni regularly make a mark in the world: Mark Radcliffe produced the first of the Harry Potter movies. The late Gordon Matthews received the patent for "voice mail."

Addo Wityasmoro from Jakarta, Indonesia, initially attended the University of Wisconsin-Milwaukee, a large (29,000) public university, where he majored in electrical engineering. However, Addo's high school friend, Malvin Hippy, came to The University of Tulsa as a petroleum engineering major. The two shared experiences via telephone chats, and Addo decided to visit Malvin at TU.

"Malvin gave me a tour of the campus and the PE department," Addo recalls. "I was impressed by the friendliness of the students and faculty; and, of course, the PE faculty are known around the world for their expertise."

Addo decided to transfer to Tulsa. His enthusiasm for the university convinced him to become a University Ambassador — a select group of TU students whose zeal for the university is contagious. University Ambassadors give university tours to prospective students and their families, showing them the campus. During the tour, ambassadors tell the prospective students why they chose TU.

"I always point out the student-faculty ratio — 11 to 1 — and remind students that means the professors always have time for you," Addo says. "Not only that, the faculty are well-respected experts in their fields of study, and that means a lot of good connections when you graduate." Addo acknowledges that in his field — petroleum engineering — multinational

Suelma Morais de Brito had studied abroad before coming to the U.S. She learned English at London's Hastings International School and also studied human resources and management at the Universidade Lusíada, in Lisbon, Portugal. However, she has a very strong connection to The University of Tulsa — her dad, Mateus Morais de Brito, graduated from TU with a degree in geosciences.

Suelma, who comes from Luanda, Angola, was the first member of her family to return to Tulsa, but she is not the last. Her cousin, Crisna Cardoso, is also studying at TU.

However, more than family ties brought her here.

"The University of Tulsa has a wonderful reputation," she says. "The classes are challenging,

corporations recruit TU graduates and internships are available around the world.

He also tells them that Tulsa is a great place to be a college student — not so many activities to distract from studies, but always just enough to have something to do during study breaks.

"I really like golf," he says, "and I enjoy sports. Tulsa has wonderful golf courses, and at TU, you can attend exciting varsity sports events and play intramural sports too."

Addo is serving as an intern this summer in Indonesia, and previously he interned for PetroChina.

"TU's size and the friendliness of the people make it easy to meet people from everywhere — truly, college here is a matter of sharing experiences in a great atmosphere."

but professors are always available to help you."

You can read Suelma's full story on our Web site: www.utulsa.edu/iss

ACADEMIC PROGRAMS

The following majors are available at The University of Tulsa through the Henry Kendall College of Arts and Sciences, Collins College of Business and the College of Engineering and Natural Sciences:

Majors

Accounting (B.S.B.A.)
 Anthropology (B.A.)
 Art (B.A. or B.F.A.): *Emphasis in Ceramics, Graphic Design, Painting, Photography, and Printmaking*
 Art History (B.A.)
 Arts Management (B.A.)
 Athletic Training (B.S.A.T)†
 Biochemistry (B.S.)
 Biogeosciences (B.S.)
 Biological Science (B.S. or B.A.):‡
Options in Pre-Medicine, Pre-Dentistry and Pre-Veterinary
 Chemical Engineering (B.S.): *Options in Environmental Engineering, Materials, Petroleum Refining, and Pre-Medicine*
 Chemistry (B.S. or B.A.):‡
 Communication (B.A.)
 Computer Science (B.S.)
 Deaf Education (B.A.)*
 Earth and Environmental Science (B.A.):‡
 Economics (B.S.B.A., B.S., or B.A.):‡
 Education, Elementary (B.A.):‡
Secondary education certification offered with a major (designated by a ‡)
 Electrical Engineering (B.S.)
 Energy Management (B.S.)
 Engineering Physics (B.S.)
 English (B.A.):‡
 Environmental Policy (B.A. or B.S.)
 Exercise and Sports Science (B.S.E.S.S.)*
 Film Studies (B.A.)
 Finance (B.S.B.A.)
 French (B.A.)*
 Geology (B.S. or B.A.): *Options in Environmental Science and Geophysics*
 German (B.A.)*
 History (B.A.):‡

Information Systems Technology (B.S.)
 International Business and Languages (B.S.I.B.L.)
 Management (B.S.B.A.): *Specialization in Business Law, Entrepreneurship and Family Owned Business, and Human Resource Management*
 Management Information Systems (B.S.B.A.)
 Marketing (B.S.B.A.): *Specialization in Integrated Marketing Communications*
 Mathematics (B.S. or B.A.):‡
 Mathematics, Applied (B.S.):‡
Options in Business, Computer Science, Education, Engineering, and Environmental Sciences
 Mechanical Engineering (B.S.)
 Music (B.A.):‡
 Music (B.M.):‡ Composition, Instrumental Performance, Music Theory, Piano Performance, and Vocal Performance
 Music Education (B.M.E.):*
 Instrumental, Vocal, Vocal with piano emphasis
 Musical Theatre (B.A.)
 Nursing (B.S.N.):†
 Organizational Studies (B.A.)
 Petroleum Engineering (B.S.): *Minors available in Chemical, Environmental or Mechanical Engineering and Geosciences*
 Philosophy (B.A.)
 Physics (B.S. or B.A.):‡
 Political Science (B.A.):‡
 Psychology (B.A.):‡
 Religion (B.A.)
 Russian Studies (B.A.)*
 Sociology (B.A.):‡
 Spanish (B.A.)*
 Speech-Language Pathology (B.S.)*
 Theatre (B.A.):‡ *Specialization in performance or technical design*

Minors

Most disciplines as well as Advertising, Business Administration (non-business majors only), Classics, Coaching, Creative Writing, Dance, Early Childhood Intervention, Filmmaking, Scoring, Greek, International Business (business majors only), Latin, and Russian.

Certificate Programs

These programs may serve in lieu of a minor, or for students who already hold a degree, each may be completed as a freestanding program under a non-degree seeking status.

Accounting, Advertising, African American Studies, Classics, Computer Science, Finance, Information Security, International Studies, Journalism Studies, Judaic Studies, Legal Thought, Management Information Systems (MIS), Museum Studies, Not-for-profit Administration, Political Philosophy, Visual Communications, Women's Studies.

Preprofessional/Special Programs Available with any major
 Air Force ROTC (AFROTC)
 Pre-Med (PRM)
 Pre-Law (PRL)

Notes

*K-12 Teacher Certification is available.
 †An additional program application or approval is required.
 ‡Secondary Teacher Certification is available.

The University of Tulsa reserves the right to change, alter, or eliminate programs of study.
