

Fall 2012 Graduate Research Video Competition Submission Form

*****This submission form is due in the Graduate School, along with your video,
no later than noon, November 26, 2012*****

Name of Individual or Team Leader: _____

Graduate Program: _____

Team members (if applicable) – teams must consist of no more than four total members:

Area of Research/Scholarship to be highlighted in video entry:

PLEASE NOTE: Your research advisor (or if the research is supported by an external sponsor then the Principal Investigator) must approve your video submission for potential patent or proprietary data issues on behalf of The University of Tulsa. If the submission discloses ideas that may be patentable or confidential data, the advisor should not provide approval of the video submission. If there is potentially patentable material, students should meet with Dean Janet Haggerty who will work with the student and faculty to guide them with the patent application submission process. The University of Tulsa does not want to lose the opportunity to patent TU research on behalf of the student and faculty because of premature disclosure to a public audience, or inappropriate release of proprietary or confidential data.

I have viewed the final version of the video submission and affirm that it does not disclose ideas that may be patentable or contain confidential data.

Signature of Advisor/Principle Investigator

Date

I/We have read and abided by all competition criteria and rules and have consulted with our advisor/principal investigator and the Graduate School about any questions related to our submission.

Signature of Individual/Team Leader
